INSTRUCTIONS TO BIDDERS

1. SITE INVESTIGATION AND CONDITIONS AFFECTING THE WORK

- A. Examination of Site and Requirements: Bidder acknowledges that it has taken steps reasonably necessary to ascertain the nature and location of the Work, that it has carefully examined the Bid Documents and the work site, and that it has investigated and satisfied itself as to all general and local conditions, and with all applicable Federal, State, King County, and City of Bellevue laws, ordinances, rules, and regulations that may in any manner affect the performance of the Work or its cost.

Site review shall be limited to attendance of the mandatory site walk. Compliance with all provisions of Contract Documents is assumed and required in absence of written exception. If written exception is acceptable to Owner and Architect, an Addendum to the specifications will be issued and authorized. Owner will not pay for change to building structure, structural supports, mechanical, electrical, or other systems required to accommodate Contractor's equipment if not identified before Contract award and authorized as stipulated above.

- B. Pre-Bid Meeting: The Project site is available for inspection for prospective bidders at a mandatory Pre-Bid Meeting and walk-through, as indicated in the Advertisement for Bids, and existing conditions should be examined. Surface and Subsurface Conditions: Bidder acknowledges that it has satisfied itself as to the character, quality and quantity of surface and subsurface materials or obstacles to be encountered insofar as this information is reasonably ascertainable from an inspection of the site, including all exploratory work done by Owner, as well as from the drawings and specifications made a part of the Bid Documents. Bidder also represents that it has studied all latent physical conditions referred to in the Bid Documents, made such additional surveys as it deems necessary for the performance of the Work at the Total Bid amount, in accordance with the requirements of the Bid Documents.

- C. Fill in Blanks: All blank spaces on the Bid Form must be filled in by the Bidder. Bidder must submit a bid amount for any Alternates, Additives, Deductives, unit prices, and other prices indicated on the Bid Form. When bidding on items for which there is no charge, Bidder shall write the words "No Charge," "zero," or "0.00" in the space provided on the Bid Form. If a Bidder fails to submit a bid price for any item, notes "no bid" or similar language for any item or does not fill in all blank spaces on the Bid Form, the bid may be rejected as non-responsive.
- D. Sign Bid Form: The Bidder shall manually sign the Bid Form in ink by an authorized representative of the Bidder.
- E. Initial Corrections: Any correction to entries made on the Bid Form shall be initialed by an authorized representative of the Bidder.
- F. Subcontractors List: As required under RCW 39.30.060 on projects estimated to cost \$1 million or more, the Owner has included a Bidder's Subcontractors List as part of the Bid, Bidders shall complete the Subcontractors List, indicating the names of the subcontractors with whom the Bidder, if awarded the contract, will subcontract for performance of the Work of heating, ventilation and air conditioning, plumbing as described in chapter 18.106 RCW, and electrical as described in chapter 19.28 RCW, structural steel or rebar installation or to name itself for the Work.

The Subcontractors List must be submitted in a sealed envelope (1) addressed to the office specified in the Advertisement for Bids and (2) showing the name of the project, the name and address of Bidder, and marked as "Bidder's Subcontractors List."

1. **WITHIN ONE HOUR OF BID SUBMITTAL TIME:** Alternatively to submission with the Bid, a Bidder may provide names of the Subcontractors with whom the Bidder will subcontract for

performance of heating, ventilation and air conditioning (HVAC), plumbing, and electrical the Subcontractor List Form.

2. WITHIN 48 HOURS OF BID SUBMITTAL TIME: As allowed by statute, a Bidder may elect to also provide names of the Subcontractors with whom the Bidder will subcontract for structural steel installation and rebar installation on Subcontractor List separately.

3. The Bidder can name itself for the performance of the work. Bidders who name themselves to perform the work are expected to perform the work and BCCA reserves the right to reject substitution of the bidder with a subcontractor unless the bidder demonstrates a change in circumstances from the time of bid submission that is outside of the control of the bidder.

4. Substitution of a listed subcontractor (at any tier) before or after the award of the prime contract is prohibited except for the following reasons:

- a. Refusal of the listed subcontractor to sign a contract with the prime contractor,
- b. Bankruptcy or insolvency of the listed subcontractor,
- c. Inability of the listed subcontractor to perform the requirements of the proposed contract or the project,
- d. Inability of the listed subcontractor to obtain the necessary license, bonding, insurance, or other statutory requirements to perform the work detailed in the contract,
- e. Refusal or inability to provide a letter of bondability from a surety company, or
- f. The listed subcontractor is barred from participating in the project as a result of a court order.

5. The Bidder shall not list more than one Subcontractor for each category of work identified UNLESS Subcontractors vary with bid alternates, in which case the Bidder must indicate which Subcontractor will be used for which alternate.

6. Failure of the Bidder to submit within the specified times with the NAMES of such Subcontractors or to name itself to perform such work shall render the Bidder's bid nonresponsive.

7. The Subcontractor List is intended to discourage bid shopping, not to verify subcontractor qualifications. BCCA will not use the Subcontractor List as a tool to disqualify or qualify bidders.

- G. Apprentice Utilization Plan. In accordance with RCW 39.04.320(1)(a)(ii), as of July 1, 2024 for all public works estimated to cost two million dollars or more, the State of Washington requires no less than 15% of the labor hours be performed by Apprentices, unless otherwise modified by the Owner. "Labor hours" does not include hours worked by foremen, superintendents, owners, and workers who are not subject to prevailing wage requirements.

A contractor or subcontractor may not be required to exceed the 15% requirement.

The Owner has included in the Bid Form an Apprentice Utilization Plan (Plan) demonstrating how and when the Contractor and all subcontractors intend to achieve the Apprenticeship Utilization Requirement. The Contractor shall complete the Apprentice Utilization Plan template included in

the Bid Form and submit it as part of their Bid. The Plan shall show the minimum required percentage of apprentice labor hours compared to the total labor hours, as further described below.

1. Incentives. The Contractor who meets or exceeds this utilization requirement on eligible contracts, will be awarded a monetary incentive described in the Apprentice Utilization Requirements of the General Conditions.

2. Penalties. The Contractor who fails to meet the utilization requirement and fails to demonstrate a Good Faith Effort, as outlined below, is subject to penalties described in the Apprentice Utilization Requirements section of the General Conditions. Contractor will receive an invoice for any penalties assessed, payable to the Owner within 30 days. The contractor will have 30 days to pay the penalty invoice at the time of receipt before the penalty is considered outstanding. Contractors with outstanding apprenticeship penalties may be considered non-responsive on future projects.

3. Cost Value. The expected cost value associated with meeting the goal, and utilizing Apprentices, is to be included in the Base Bid and shown on the line indicated on the Bid Form.

4. Utilization Plan. The Apprentice Utilization Plan shall have enough information to track the Contractor's progress in meeting the utilization requirement. The project's apprenticeship utilization rate is calculated using the approved affidavits from the L&I portal. Please note that subcontractors at every tier are included in the calculation of labor hours. Labor Hours do not include hours performed by non-hourly employees (employers, salaried, etc.) unless they are performing hourly Work under a prevailed wage classification and submit certified payroll reflecting those hours. Not every subcontractor is required to provide 15% of their labor hours by registered apprentices. The calculation is on the whole project. The Contractor shall submit the Plan on the Apprentice Utilization Plan template with the Bid and an update prior to submitting the first invoice.

The Contractor shall provide an updated Plan prior to submitting the Contractor's first invoice, and during the course of construction when there are any significant changes to the Plan which may affect their ability to meet the requirement.

It is expected that the Contractor will actively seek out opportunities to meet the Apprentice Utilization Requirement during construction even if the Plan indicates a shortfall in meeting the requirement.

If the Plan indicates that the Contractor, together with all subcontractors, will not attain the Apprentice Utilization Requirement, then Contractor must submit documentation of its "Good Faith Effort" (GFE), a Change Order Proposal and Apprentice Utilization Percentage Adjustment request. See Part 10.12 of the General Conditions for more details.

5. Good Faith Effort (GFE)

(a) Good Faith Effort (GFE) documentation shall describe in detail why the Contractor is not able to attain the Apprentice Utilization Requirement, itemize the Contractor's specific efforts to utilize apprentices and set forth responses received to such efforts.

1. Contractors may submit Good Faith Effort (GFE) documentation at any time during the construction.
2. All GFE documentation and Change Order Proposals and Apprentice Utilization Percentage requests must be submitted no later than 30 days before substantial completion.

- H. Acknowledge Addenda: Bidders shall acknowledge receipt of all addenda by identifying the addendum number in the space provided on the Bid Form.

4. BID PRICES

- A. Filing Fees: Applicable state laws concerning prevailing wages, hours, workers' compensation and other conditions of employment are called to the attention of Bidders for their compliance. Bidder shall include in the bid any filing fees required to comply with applicable labor laws.
- B. Sales Tax: The bid shall include all taxes imposed by law except Washington State Sales Tax. Sales tax shall not be included in the bid price, except as noted below:
1. Retail sales tax upon sales and rentals to prime contractors and subcontractors of tools, equipment, and material primarily for use by the Contractor rather than for resale as a component part of the finished structure, shall be included in the bid price. A proportionate amount of State sales tax will be added to each progress payment, collected from Owner, and paid to the State by Contractor.
- C. Insurance and Bonds: Bidder shall include in its bid the cost of all insurance and bond costs required by the Contract Documents to complete the base bid Work and all additives and alternates.

5. SPECIFIED PRODUCTS

- A. Bid Products Identified: Bids must be based upon use of items named in the specifications, or approved equals or substitutions. In certain cases, specific items have been named because of operational or maintenance considerations; approval of equals or substitutions should not be assumed.
- B. Substitution Requests: Requests for approval of equals or substitutions must be made in writing and received by the Owner at least 10 days prior to the bid submission deadline. Said request must include complete descriptions, technical data, and performance records. Any approval of the proposed equal or substitution will be made by addendum issued to all Bidders.

6. BID GUARANTY

- A. When the sum of the base bid plus all additive alternates is greater than \$35,000.00, a bid guarantee in the amount of 5% of the base bid amount is required. Failure of the Bidder to provide bid guarantee when required shall render the bid non-responsive.
- B. Acceptable forms of bid guarantee are A bid bond or postal money order, or certified check or cashier's check made payable to Meydenbauer Center

If any of the 3 lowest responsive bidders has indicated a cashier's check as their form of bid security, they will be contacted by BCCA with instructions on how to submit the original/valid cashier's check within 48 hours of being notified. BCCA will return bid guarantees (certified check or cashier's check) to unsuccessful Bidders as soon as practicable, but not sooner than the execution of a contract with the successful Bidder. The successful Bidder's bid guarantee will be returned to the successful Bidder with its official notice to proceed with the work of the contract.

- C. The Bidder will allow 60 days from bid opening date for acceptance of its bid by the Owner. The Bidder will return to the Owner a signed contract, insurance certificate and bond or bond waiver within 15 days after receipt of the contract. If the apparent successful Bidder fails to sign all contractual documents or

provide the bond and insurance as required or return the documents within 15 days after receipt of the contract, the Owner may terminate the award of the contract.

D. In the event a Bidder discovers an error in its bid following the bid opening, the Bidder may request to withdraw its bid under the following conditions: 1. The Bidder must submit written notification of the withdrawal to the Owner within 24 hours following the bid opening. 2. The Bidder provides written documentation of the claimed error to the satisfaction of the Owner within 72 hours following the bid opening. 3. The Owner will approve or disapprove the request for withdrawal of the bid in writing. If the Bidder's request for withdrawal of its bid is approved, the Bidder will be released from further obligation to the Owner without penalty. If it is disapproved, the Owner may retain the Bidder's bid guarantee.

E. Prohibited Forms of Bids: Receipt of bids and bid modifications by facsimile, telephone, or orally will not be considered.

F. Withdrawal of Bid: After submitting a bid to the Owner, a Bidder may withdraw its bid if the Owner receives a request from a Bidder to withdraw the bid prior to the bid submission deadline. Any request to withdraw a bid which is received after the bid submission deadline will not be considered.

G. Modification of Bid: After a Bidder has withdrawn its bid as described in the paragraph above, a Bidder may revise its bid if the Owner receives the revised bid on the required Bid Form prior to the bid submission deadline in a properly marked and sealed envelope. Any bid modification which is received after the bid submission deadline will not be considered.

H. Modification of Bidder's Subcontractors List: After submitting the Bidder's Subcontractors List to the Owner, a Bidder may revise its Subcontractors List only if the Owner receives the revised Bidder's Subcontractors List on the required form prior to the submission deadline for the Bidder's Subcontractors List, and the revised Bidder's Subcontractors List shall be submitted in a properly marked and sealed envelope prior to the submission deadline for the Subcontractors List. Any modification to the Bidder's Subcontractors List which is received after the submission deadline for the Bidder's Subcontractors List will not be considered.

1. Substitution of a listed subcontractor in furtherance of bid shopping or bid peddling before or after the award of the prime contract is prohibited and the originally listed subcontractor is entitled to recover monetary damages from the prime contract bidder who executed a contract with the public entity and the substituted subcontractor but not from the public entity inviting the bid. It is the original subcontractor's burden to prove by a preponderance of the evidence that bid shopping or bid peddling occurred. Substitution of a listed subcontractor may be made by the prime contractor for the following reasons:

- a. Refusal of the listed subcontractor to sign a contract with the prime contractor;
- b. Bankruptcy or insolvency of the listed subcontractor;
- c. Inability of the listed subcontractor to perform the requirements of the proposed contract or the project;
- d. Inability of the listed subcontractor to obtain the necessary bonding, insurance, or other statutory requirements to perform the work detailed in the contract;

8. CLAIM OF ERROR

- A. Submission of Claim of Error: A Bidder who wishes to claim error after the bids have been opened shall submit a signed statement, accompanied by original work sheets used in the preparation of the bid, requesting relief from the responsibilities of award. The statement shall describe the specific error(s) and certify that the work sheets are the originals used in the preparation of the Bid. The statement and original work sheets shall be submitted in person or by courier to:

Bellevue Convention Center Authority
11100 Northeast 6th Street
Bellevue, Washington 98004

by 5:00 p.m. on the Business Day after the bid submission deadline or the claim will not be considered. The Owner reserves the right to extend this deadline at its discretion.

- B. Review by Owner: The Owner will review the certified work sheets to determine the validity of the claimed error. If the Owner concurs in the claim of error, the Bidder will be relieved of responsibility, the bid will be withdrawn from the bid pool, and the bid guaranty of the Bidder in the form of a cashier's check or certified check will be returned. Thereafter, at the discretion of the Owner, all bids may be rejected or award made to the next lowest responsible Bidder who submitted a responsive bid. A low Bidder on a public works project who claims error and fails to enter into a contract is prohibited from bidding on the same project if the project is re-bid.

9. BID EVALUATION

- A. Non-Responsive Bids: Bids which are incomplete, conditioned or qualified in any way, contain erasures or alterations, include alternate bids or other items not called for on the Bid Form and in the Bid Documents, are not in conformity with the law or with these Instructions, contain a statement by the Bidder reserving the right to accept or reject an award or to enter into the contract, or include any other irregularity shall be rejected as nonresponsive if the irregularity is material and may be rejected as nonresponsive if the irregularity is not material. Only the amounts and information asked for on the Bid Form furnished will be considered as the bid. Failure to submit either the Bid Form or Subcontractors List (if applicable) within the allotted times as described in the Advertisement for Bids, Section 00 11 00, shall render the entire bid nonresponsive.

- B. Multiple Bids: If more than one bid is submitted by a Bidder, or by any person or persons representing the Bidder, all such bids shall be rejected as non-responsive. A party who has submitted subcontract or supply prices to a Bidder may submit prices to other Bidders, and may submit a direct and complete bid for the project to the Owner on its own behalf.
 - C. Tied Bids: After bids have been opened, if two or more of the lowest responsive bids have Total Bid amounts that are exactly equal, then the following drawing process will be used to break the tied bids and determine the successful Bidder. Two or more slips of paper will be marked as follows: one marked "Winner" and the other(s) marked "Unsuccessful." The slips will be folded to make the marking unseen. The slips will be placed inside a box. One authorized representative of each Bidder shall draw a slip from the box. Bidders shall draw in alphabetic order by the name of the firm as registered with the Washington State Department of Licensing. The slips shall be unfolded and the firm with the slip marked "Winner" will be determined to be the successful Bidder and eligible for award of the contract. Only those Bidders who submitted a Total Bid amount that is exactly equal to the lowest responsive Bid are eligible to draw.
 - D. Waiving Irregularities: Owner reserves the right to reject any or all bids, and to waive as an informality any immaterial irregularities in the bids received.
 - E. Award of Additives, Alternates, Deductives: The low bid shall be determined by the sum of the Base Bid (the summation of bid item price extensions, corrected where necessary), plus any combination of Additives, Alternatives, and/or Deductives that the Owner decides, in its sole discretion, to include in the contract award. Additives, Alternates, and/or Deductives may be selected in any order that the Owner determines to be most advantageous and is not to be construed as discriminatory. The numbering of the Additives, Alternates, and/or Deductives on the Bid Form bears no relationship to the order in which they may be selected by the Owner. The summation of extensions corrected where necessary, and including any applicable Additives, Alternatives, Deductives, and sales taxes, will be used to fix the awarded contract price and the amount of the payment and performance bonds.
 - F. Bid Evaluation Documentation and Meeting: In order to verify that the Bidder has adequately incorporated all elements of the Work and the requirements of the Contract Documents in its bid prices, the Bidder shall, upon request of the Owner, promptly make available for the Owner's review a complete itemization and breakdown of its Total Bid amount, a description of the Bidder's understanding of the Work, and a proposed schedule. Prior to award, upon request of the Owner, the Bidder should provide a Schedule of Values to assist the Owner in evaluating the bid and the Bidder's understanding of the Project. If in the review of the Schedule of Values, any value is 20% above the architect's estimate, documentation substantiating the values may be required. In the event the Bidder refuses to provide the requested information, the Owner may reject the bid as non-responsive.
- A. BID PROTESTS
- A. Bidders may submit a bid protest to swaltemire@meydenbauer.com within 2 business days of the Bid Opening, or within 2 business days after BCCA provided electronic copies of bid submissions received to those Bidders that timely requested copies of bids received, if later.
 - B. To be considered timely for purposes of this solicitation, a request for electronic copies of bid submissions received must be made within 2 business days after the bid opening.

BCCA will not acknowledge or accept any bid protest received more than 2 business days after the time set out in (A) above.

BCCA will not accept bid protests from non-bidders.

- C. BCCA will review any bid protest received and shall maintain sole discretion on the merits of and resolution of any bid protest.
- D. BCCA will provide written notice to protesting bidders of an intent to enter upon a Public Works Contract with anyone other than the protesting bidder as follows:
1. Not less than 2 business days following the Bid Opening, if no bidders requests electronic copies of bid submissions received, or
 2. Not less than 2 business days following the date on which BCCA provided electronic copies of the bid submissions received to those bidders requesting electronic copies of bids received.
- B. **Reciprocal Bid Preference:** In accordance with RCW 39.04.380, for a public works bid received from a nonresident contractor from a state that provides an in-state percentage bidding preference, a Comparable Percentage Disadvantage (CPD) will be applied to the bid of that nonresident contractor. The CPD is the percent advantage provided by the nonresident contractor's home state. For the purpose of determining the successful Bidder, Owner will multiply the nonresident contractor bid amount by the CPD. The "bid amount" shall be the total of the Base Bid and all accepted Alternate, Additive, and Deductive bid items. The CPD shall be added to the nonresident contractor bid amount to establish the Nonresident Disadvantage Total. The Nonresident Disadvantage Total shall be compared to the Washington State contractor bid amounts, and other nonresident contractors whose states do not provide in-state percentage bidding preferences. The Bidder with the lowest total shall be the successful Bidder. See example below:

Alaska Nonresident Contractor Bid Amount	\$100,000
<u>Multiplied by the Alaska</u>	<u>x 0.05</u>
<u>CPD</u>	
Alaska CPD Total	\$ 5,000
 Alaska Nonresident Contractor Bid Amount	 \$100,000
<u>Alaska CPD</u>	<u>+</u>
<u>Total</u>	<u>5,000</u>
 Nonresident Disadvantage Total	 \$105,000

When Nonresident Disadvantage Total is Low: If the Nonresident Disadvantage Total is lower than all other Washington contractor bid amounts, and other nonresident contractors whose states do not provide in-state percentage bidding preferences, the Alaska nonresident contractor is the low bidder and will be awarded a contract for the bid amount of \$100,000, provided that they are determined to be a responsible bidder with a responsive bid.

When Nonresident Disadvantage Total is High: If the Nonresident Disadvantage Total is higher than a Washington contractor bid amount, or other nonresident contractors whose states do not provide in-state percentage bidding preferences, the lowest bidder will be awarded a contract for the bid amount, provided that they are determined to be a responsible bidder with a responsive bid.

Definition of Nonresident Contractors: A nonresident contractor from a state that provides a percentage bid preference means a contractor that:

- a) Is from a state that provides a percentage bid preference to its resident contractors bidding on public works contracts.

- b) At the time of bidding on a public works project, does not have a physical office located in Washington. The state of residence for a nonresident contractor is the state in which the contractor was incorporated or, if not a corporation, the state where the contractor's business entity was formed.

10. LOWEST RESPONSIBLE BIDDER

- A. Mandatory Bidder Responsibility Criteria: It is the intent of Owner to award a contract to the low responsible bidder. Before award, the Bidder must meet the following bidder responsibility criteria, as outlined in RCW 39.04.350, to be considered a responsible bidder. The Bidder may be required by the Owner to submit documentation demonstrating compliance with the criteria. The Bidder must:

The Bidder shall sign a statement attesting to any violations.

B. Supplemental Bidder Responsibility Criteria: In addition to the mandatory Bidder responsibility, the Owner may adopt relevant supplemental criteria for determining Bidder responsibility applicable to a particular project which the Bidder must meet (RCW 39.04.350 (3)). If applicable, the Owner shall consider an overall accounting of the attached supplemental criteria for determining Bidder responsibility "DIVISION 00 SUPPLEMENTAL RESPONSIBILITY CRITERIA". At least seven (7) days prior to the bid submittal deadline, a potential Bidder may request that the Owner modify the supplemental responsibility criteria. The Owner will evaluate the information submitted by the potential Bidder and respond before the bid submittal deadline through addenda the evaluation results in a change of the criteria, the Owner will issue an addendum to the bidding documents identifying the new criteria. The addendum will be posted as a public notice. Upon Owner's request, the apparent low Bidder must supply the requested responsibility information within two (2) business days of request by Owner. Withholding information or failure to submit all the information requested within the time provided may render the bid non-responsive. If the Owner determines that the apparent low Bidder is not responsible, the Owner will notify the Bidder of its preliminary determination in writing. After receipt of the preliminary determination, the Bidder may withdraw its bid submission before the bid submittal deadline or request a hearing where the Bidder may appeal the preliminary determination and present additional information to the Owner. The Owner will schedule a hearing within three (3) working days of receipt of the Bidder's request. The Owner's Final Determination is specific to this project and will have no effect on other or future projects. Additionally, The Owner may conduct reference checks for the Bidder whose bid is under consideration for award. In the event that information obtained from the reference checks:

1. Reveals that the Bidder does not meet the Supplemental Bidder Responsibility Criteria; or
2. Indicates concerns about the Bidder's performance on projects identified as meeting the Supplemental Bidder Responsibility Criteria, which may include, but not be limited to the quality of construction, the bidder's management of subcontractors, timeliness of required submittals, and safety record on the project; or
3. indicates other concerns about the Bidder's ability to successfully perform the Work, the Owner may determine that the Bidder is not a responsible Bidder. Prior to making such a determination that a Bidder is not responsible based on information received through reference checks, the Owner shall discuss with the Bidder the information obtained from the references and provide the Bidder with the opportunity to offer explanations that may help inform whether the Owner declares the Bidder not responsible. In conducting reference checks, the Owner may include itself as a reference if the Bidder has performed work for the Owner, even if the Bidder did not identify the Owner as a reference.

Supplemental Criteria:

- D. Process When Supplemental Bidder Responsibility Criteria Not Met: If the Owner determines the apparent low Bidder does not meet the Supplemental Bidder Responsibility Criteria in 10.B above and is therefore not a responsible bidder, the Owner shall notify the Bidder in writing with the reasons for its determination. The Owner will consider the additional information before issuing its final determination. If the final determination affirms that the Bidder is not responsible, the Owner will not execute a contract with any other bidder until two business days after the Bidder determined to be not responsible has received the final determination.

- C. Owner comments on Progress Schedule: Owner shall return comments on the preliminary Progress Schedule to Contractor within 14 Days of receipt. Review by Owner of Contractor's schedule does not constitute approval or acceptance of Contractor's construction means, methods, or sequencing, or its ability to complete the Work within the Contract Time. Contractor shall revise and resubmit its schedule, as necessary. Owner may withhold a portion of progress payments until a Progress Schedule has been submitted which meets the requirements of this section.
- D. Monthly updates and compliance with Progress Schedule: Contractor shall utilize and comply with the Progress Schedule. On a monthly basis, or as otherwise directed by Owner, Contractor shall submit an updated Progress Schedule at its own expense to Owner indicating actual progress. If, in the opinion of Owner, Contractor is not in conformance with the Progress Schedule for reasons other than acts of Force Majeure as identified in Section 3.05, Contractor shall take such steps as are necessary to bring the actual completion dates of its work activities into conformance with the Progress Schedule, and if directed by Owner, Contractor shall submit a corrective action plan or revise the Progress Schedule to reconcile with the actual progress of the Work.
- E. Contractor to notify Owner of delays: Contractor shall promptly notify Owner in writing of any actual or anticipated event which is delaying or could delay achievement of any milestone or performance of any critical path activity of the Work. Contractor shall indicate the expected duration of the delay, the anticipated effect of the delay on the Progress Schedule, and the action being or to be taken to correct the problem. Provision of such notice does not relieve Contractor of its obligation to complete the Work within the Contract Time.

3.03 OWNER'S RIGHT TO SUSPEND THE WORK FOR CONVENIENCE

- A. Owner may suspend Work: Owner may, at its sole discretion, order Contractor, in writing, to suspend all or any part of the Work for up to 90 Days, or for such longer period as mutually agreed, subject to negotiation regarding cost and schedule impacts.
- B. Compliance with suspension; Owner's options: Upon receipt of a written notice suspending the Work, Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of cost of performance directly attributable to such suspension. Within a period up to 90 Days after the notice is delivered to Contractor, or within any extension of that period to which the parties shall have agreed, Owner shall either:

1. Cancel the written notice suspending the Work; or
 2. Terminate the Work covered by the notice as provided in the termination provisions of Part 9.
- C. Resumption of Work: If a written notice suspending the Work is cancelled or the period of the notice or any extension thereof expires, Contractor shall resume Work.
- D. Equitable Adjustment for suspensions: Contractor shall be entitled to an equitable adjustment in the Contract Time, or Contract Sum, or both, for increases in the time or cost of performance directly attributable to such suspension, provided Contractor complies with all requirements set forth in Part 7.

3.04 OWNER'S RIGHT TO STOP THE WORK FOR CAUSE

- A. Owner may stop Work for Contractor's failure to perform: If Contractor fails or refuses to perform its obligations in accordance with the Contract Documents, Owner may order Contractor, in writing, to stop the Work, or any portion thereof, until satisfactory corrective action has been taken.
- B. No Equitable Adjustment for Contractor's failure to perform: Contractor shall not be entitled to an equitable adjustment in the Contract Time or Contract Sum for any increased cost or time of performance attributable to Contractor's failure or refusal to perform or from any reasonable remedial action taken by Owner based upon such failure.

3.05 DELAY

- A. Force Majeure actions not a default; Force Majeure defined: Any delay in or failure of performance by Owner or Contractor, other than the payment of money, shall not constitute a default hereunder if and to the extent the cause for such delay or failure of performance was unforeseeable and beyond the control of the party ("Force Majeure"). Acts of Force Majeure include, but are not limited to:
1. Acts of God or the public enemy;
 2. Acts or omissions of any government entity;
 3. Fire or other casualty for which Contractor is not responsible;
 4. Quarantine or epidemic;
 5. Strike or defensive lockout;
 6. Unusually severe weather conditions which could not have been reasonably anticipated; and
 7. Unusual delay in receipt of supplies or products which were ordered and expedited and for which no substitute reasonably acceptable to Owner was available.
- B. Contract Time adjustment for Force Majeure: Contractor shall be entitled to an equitable adjustment in the Contract Time for changes in the time of performance directly attributable to an act of Force Majeure, provided it makes a request for equitable adjustment according to Section 7.03. Contractor shall not be entitled to an adjustment in the Contract Sum resulting from an act of Force Majeure.
- C. Contract Time or Contract Sum adjustment if Owner at fault: Contractor shall be entitled to an equitable adjustment in Contract Time, and may be entitled to an equitable adjustment in Contract

Sum, if the cost or time of Contractor's performance is changed due to the fault or negligence of Owner, provided the Contractor makes a request according to Sections 7.02 and 7.03.

- D. No Contract Time or Contract Sum adjustment if Contractor at fault: Contractor shall not be entitled to an adjustment in Contract Time or in the Contract Sum for any delay or failure of performance to the extent such delay or failure was caused by Contractor or anyone for whose acts Contractor is responsible.
- E. Contract Time adjustment only for concurrent fault: To the extent any delay or failure of performance was concurrently caused by the Owner and Contractor, Contractor shall be entitled to an adjustment in the Contract Time for that portion of the delay or failure of performance that was concurrently caused, provided it makes a request for equitable adjustment according to Section 7.03, but shall not be entitled to an adjustment in Contract Sum.
- F. Contractor to mitigate delay impacts: Contractor shall make all reasonable efforts to prevent and mitigate the effects of any delay, whether occasioned by an act of Force Majeure or otherwise.

3.06 NOTICE TO OWNER OF LABOR DISPUTES

- A. Contractor to notify Owner of labor disputes: If Contractor has knowledge that any actual or potential labor dispute is delaying or threatens to delay timely performance in accordance with the Contract Documents, Contractor shall immediately give notice, including all relevant information, to Owner.
- B. Pass through notification provisions to Subcontractors: Contractor agrees to insert a provision in its Subcontracts and to require insertion in all sub-subcontracts, that in the event timely performance of any such contract is delayed or threatened by delay by any actual or potential labor dispute, the Subcontractor or Sub-subcontractor shall immediately notify the next higher tier Subcontractor or Contractor, as the case may be, of all relevant information concerning the dispute.

3.07 DAMAGES FOR FAILURE TO ACHIEVE TIMELY COMPLETION

- A. Liquidated Damages
 - 1. Reason for Liquidated Damages: Timely performance and completion of the Work is essential to Owner and time limits stated in the Contract Documents are of the essence. Owner will incur serious and substantial damages if Substantial Completion of the Work does not occur within the Contract Time. However, it would be difficult if not impossible to determine the exact amount of such damages. Consequently, provisions for liquidated damages are included in the Contract Documents.
 - 2. Calculation of Liquidated Damages amount: The liquidated damage amounts set forth in the Contract Documents will be assessed not as a penalty, but as liquidated damages for breach of the Contract Documents. This amount is fixed and agreed upon by and between the Contractor and Owner because of the impracticability and extreme difficulty of fixing and ascertaining the actual damages the Owner would in such event sustain. This amount shall be construed as the actual amount of damages sustained by the Owner, and may be retained by the Owner and deducted from the Owner's release of retainage.

PART 4 – SPECIFICATIONS, DRAWINGS, AND OTHER DOCUMENTS

4.01 DISCREPANCIES AND CONTRACT DOCUMENT REVIEW

- A. Specifications and Drawings are basis of the Work: The intent of the Specifications and Drawings is to describe a complete Project to be constructed in accordance with the Contract Documents.

Contractor shall furnish all labor, materials, equipment, tools, transportation, permits, appliances, fuel, power, light, heat, telephone, water, sanitary facilities, supplies, and all other facilities and incidentals necessary to perform the Work required by the Drawings, Specifications, and other provisions of the Contract Documents. All materials and equipment shall be applied, installed, connected, erected, used, cleaned, and conditioned in accordance with the instructions of the applicable manufacturer, fabricator, or processors, except as otherwise provided in the Contract Documents.

- B. Parts of the Contract Documents are complementary: The Contract Documents are complementary. What is required by one part of the Contract Documents shall be binding as if required by all. Anything mentioned in the Specifications and not shown on the Drawings, or shown on the Drawings and not mentioned in the Specifications, shall be of like effect as if shown or mentioned in both.
- C. Contractor to report discrepancies in Contract Documents: Contractor shall carefully study and compare the Contract Documents with each other and with information furnished by Owner. If, during the performance of the Work, Contractor finds a conflict, error, inconsistency, or omission in the Contract Documents, it shall promptly and before proceeding with the Work affected thereby, report such conflict, error, inconsistency, or omission to Owner's Representative in writing.
- D. Contractor knowledge of discrepancy in documents – responsibility: Contractor shall do no Work without applicable Drawings, Specifications, or written modifications, or Shop Drawings where required, unless instructed to do so in writing by Owner. If Contractor performs any construction activity, and it knows or reasonably should have known that any of the Contract Documents contain a conflict, error, inconsistency, or omission, Contractor shall be responsible for the performance and shall bear the cost for its correction.
- E. Contractor to perform Work implied by Contract Documents: Contractor shall provide any work or materials the provision of which is clearly implied and is within the scope of the Contract Documents even if the Contract Documents do not mention them specifically.
- F. Interpretation questions referred to Owner's Representative: Questions regarding interpretation of the requirements of the Contract Documents shall be referred to the Owner's Representative. Owner's Representative will issue, with reasonable promptness, such written clarifications or interpretations of the Contract Documents as determined necessary, which shall be consistent with, or reasonably inferable from the overall intent of the Contract Documents.

4.02 PROJECT RECORD

- A. Contractor to maintain Project Record Drawings and Specifications: Contractor shall legibly mark in ink on a separate set of the Drawings and Specifications all actual construction, including depths of foundations, horizontal and vertical locations of internal and underground utilities and appurtenances referenced to permanent visible and accessible surface improvements, field changes of dimensions and details, actual suppliers, manufacturers and trade names, models of installed equipment, and Change Order Proposals. This separate set of Drawings and Specifications shall be the "Project Record."
- B. Update Project Record weekly and keep on site: The Project Record shall be maintained on the project site throughout the construction and shall be clearly labeled "PROJECT RECORD." The Project Record shall be updated at least weekly noting all changes and shall be available to Owner at all times.
- C. Final Project Record to Owner's Representative before Final Acceptance: Contractor shall submit the completed and finalized Project Record to Owner's Representative prior to Final Acceptance.

- D. Copies of Contract Documents: After award of the Contract, the Owner shall provide to the Contractor, without cost to the Contractor, the following sets of Contract Documents. All other sets of the Contract Documents required by the Contractor or their subcontractors for the Project shall be obtained by the Contractor at the Contractor's sole cost.

- Executed Contract Documents with full size Drawings (24" x 36") – 1 set
- Unexecuted Contract Documents with reduced size Drawings (11" x 17") – 1 set
- Full size Drawings (24" x 36") – 2 sets

4.03 SHOP DRAWINGS

- A. Definition of Shop Drawings: "Shop Drawings" means documents and other information required to be submitted to Owner's Representative by Contractor pursuant to the Contract Documents, showing in detail: the proposed fabrication and assembly of structural elements; and the installation (i.e. form, fit, and attachment details) of materials and equipment. Shop Drawings include, but are not limited to, drawings, diagrams, layouts, schematics, descriptive literature, illustrations, schedules, performance and test data, samples, and similar materials furnished by Contractor to explain in detail specific portions of the Work required by the Contract Documents. For materials and equipment to be incorporated into the Work, Contractor submittal shall include the name of the manufacturer, the model number, and other information concerning the performance, capacity, nature, and rating of the item. When directed, Contractor shall submit all samples at its own expense. Owner may duplicate, use, and disclose Shop Drawings provided in accordance with the Contract Documents.
- B. Approval of Shop Drawings by Contractor: Contractor shall coordinate all Shop Drawings, and review them for accuracy, completeness, and compliance with the Contract Documents and shall indicate its approval thereon as evidence of such coordination and review. Where required by law, Shop Drawings shall be stamped by an appropriate professional licensed by the state of Washington. Contractor's stamp of approval on any Shop Drawings or sample shall constitute a representation to the Owner that Contractor has either determined and verified all quantities, dimensions, field construction criteria, materials, catalog numbers, and similar data, or Contractor assumes full responsibility for doing so, and that Contractor has reviewed or coordinated each Shop Drawing or sample with the requirements of the Work and the Contract Documents. Shop Drawings submitted to Owner's Representative without evidence of Contractor's approval shall be returned for resubmission. Contractor shall review, approve, and submit Shop Drawings with reasonable promptness and in such sequence as to cause no delay in the Work or in the activities of Owner or separate contractors. Contractor's submittal schedule shall allow a reasonable time for Owner's Representative review. Submittals made by Contractor which are not required by the Contract Documents may be returned without action.
- C. Approval of Shop Drawings by Owner's Representative: Owner's Representative will review, approve, or take other appropriate action on the Shop Drawings, but such review and approval shall be only for conformance with the design concept of the Project and for compliance with the information given in the Contract Documents. The approval of a separate item by Owner does not indicate approval of the assembly in which the item functions. Contractor shall perform no portion of the Work requiring submittal and review of Shop Drawings until the respective submittal has been reviewed and the Owner's Representative has approved or taken other appropriate action. Owner's Representative shall respond to Shop Drawing submittals with reasonable promptness. Any Work by Contractor shall be in accordance with reviewed Shop Drawings.
- D. Correction of Shop Drawings: Contractor shall make any corrections of Shop Drawings required by the Owner's Representative, and shall return the required number of corrected copies of Shop Drawings, and resubmit new samples until approved. Contractor shall direct specific attention in writing or on resubmitted Shop Drawings to revisions other than the corrections called for by Owner's Representative on previous submissions.

- E. Contractor not relieved of responsibility when Shop Drawings approved: Approval, or other appropriate action with regard to Shop Drawings, by Owner's Representative shall not relieve Contractor of responsibility for any errors or omissions in such Shop Drawings, nor from responsibility for compliance with the requirements of the Contract Documents. Unless specified in the Contract Documents, review by Owner's Representative shall not constitute an approval of the safety precautions employed by Contractor during construction, or constitute an approval of Contractor's means or methods of construction. If Contractor fails to obtain approval before installation and the item or work is subsequently rejected, Contractor shall be responsible for all costs of correction.
- F. Variations between Shop Drawings and Contract Documents: If Shop Drawings show variations from the requirements of the Contract Documents, Contractor shall describe such variations in writing, separate from the Shop Drawings, at the time it submits the Shop Drawings containing such variations. If Owner's Representative approves any such variation, an appropriate Change Order will be issued. If the variation is minor and does not involve an adjustment in the Contract Sum or Contract Time, a Change Order need not be issued; however, the modification shall be recorded upon the Project Record.
- G. Contractor to submit 5 copies of Shop Drawings: Unless otherwise provided in Division 1, Contractor shall submit to Owner's Representative for approval 2 copies of all Shop Drawings. Unless otherwise indicated, 3 sets of all Shop Drawings shall be retained by Owner's Representative and 2 sets shall be returned to Contractor. A copy of each approved Shop Drawing and each approved sample shall be kept in good order by Contractor at the site and shall be available to the Owner's Representative.

4.04 ORGANIZATION OF SPECIFICATIONS

Specification organization by trade: Specifications are prepared in sections which conform generally with trade practices. These sections are for Owner and Contractor convenience and shall not control Contractor in dividing the Work among the Subcontractors or in establishing the extent of the Work to be performed by any trade.

4.05 OWNERSHIP AND USE OF DRAWINGS, SPECIFICATIONS, AND OTHER DOCUMENTS

- A. Designer, not Contractor, owns Copyright of Drawings and Specifications: The Drawings, Specifications, and other documents prepared by A/E are instruments of A/E's service through which the Work to be executed by Contractor is described. Neither Contractor nor any Subcontractor shall own or claim a copyright in the Drawings, Specifications, and other documents prepared by A/E or Owner, and A/E or Owner shall be deemed the author of them and will, along with any rights of Owner, retain all common law, statutory, and other reserved rights, in addition to the copyright, unless otherwise specified in the contract between the Owner and A/E. All copies of these documents, except Contractor's set, shall be returned or suitably accounted for to A/E, on request, upon completion of the Work.
- B. Drawings and Specifications to be used only for this Project: The Drawings, Specifications, and other documents prepared by the A/E, and copies thereof furnished to Contractor, are for use solely with respect to this Project. They are not to be used by Contractor or any Subcontractor on other projects or for additions to this Project outside the scope of the Work without the specific written consent of Owner and A/E. Contractor and Subcontractors are granted a limited license to use and reproduce applicable portions of the Drawings, Specifications, and other documents prepared by A/E appropriate to and for use in the execution of their Work.
- C. Shop Drawing license granted to Owner: Contractor and all Subcontractors grant a non-exclusive license to Owner, without additional cost or royalty, to use for its own purposes (including reproduction) all Shop Drawings, together with the information and diagrams contained therein, prepared by Contractor or any Subcontractor. In providing Shop Drawings, Contractor and all

Subcontractors warrant that they have authority to grant to Owner a license to use the Shop Drawings, and that such license is not in violation of any copyright or other intellectual property right. Contractor agrees to defend and indemnify Owner pursuant to the indemnity provisions in Section 5.03 and 5.22 from any violations of copyright or other intellectual property rights arising out of Owner's use of the Shop Drawings hereunder, or to secure for Owner, at Contractor's own cost, licenses in conformity with this section.

- D. Shop Drawings to be used only for this Project: The Shop Drawings and other submittals prepared by Contractor, Subcontractors of any tier, or its or their equipment or material suppliers, and copies thereof furnished to Contractor, are for use solely with respect to this Project. They are not to be used by Contractor or any Subcontractor of any tier, or material or equipment supplier, on other projects or for additions to this Project outside the scope of the Work without the specific written consent of Owner. The Contractor, Subcontractors of any tier, and material or equipment suppliers are granted a limited license to use and reproduce applicable portions of the Shop Drawings and other submittals appropriate to and for use in the execution of their Work under the Contract Documents.

PART 5 – PERFORMANCE

5.01 CONTRACTOR CONTROL AND SUPERVISION

- A. Contractor responsible for Means and Methods of construction: Contractor shall supervise and direct the Work, using its best skill and attention, and shall perform the Work in a skillful manner. Contractor shall be solely responsible for and have control over construction means, methods, techniques, scheduling, sequences, procedures, safety precautions and programs, and for coordinating all portions of the Work, unless the Contract Documents give other specific instructions concerning these matters. Contractor shall disclose its means and methods of construction when requested by Owner.
- B. Competent Superintendent required: Performance of the Work shall be directly supervised by a competent superintendent who has authority to act for Contractor. The superintendent must be satisfactory to the Owner and shall not be changed without the prior written consent of Owner. Owner may require Contractor to remove the superintendent from the Work or Project site, if Owner reasonably deems the superintendent incompetent, careless, or otherwise objectionable, provided Owner has first notified Contractor in writing and allowed a reasonable period for transition.

Notice requirement for concealed or unknown conditions: If Contractor encounters conditions at the site which are subsurface or otherwise concealed physical conditions which differ materially from those indicated in the Contract Documents, or unknown physical conditions of an unusual nature which differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities of the character provided for in the Contract Documents, then Contractor shall give written notice to Owner promptly and in no event later than 7 Days after the first observance of the conditions. Conditions shall not be disturbed prior to such notice.
- B. Adjustment in Contract Time and Contract Sum: If such conditions differ materially and cause a change in Contractor's cost of, or time required for, performance of any part of the Work, the Contractor may be entitled to an equitable adjustment in the Contract Time or Contract Sum, or both, provided it makes a request therefore as provided in Part 7.

5.11 PROTECTION OF EXISTING STRUCTURES, EQUIPMENT, VEGETATION, UTILITIES AND IMPROVEMENTS

- A. Contractor to protect and repair property: Contractor shall protect from damage all existing structures, equipment, improvements, utilities, and vegetation: at or near the Project site; and on adjacent property of a third party, the locations of which are made known to or should be known by Contractor. Contractor shall not subject any part of the Project to stresses or pressures that will endanger it. Contractor shall repair any damage, including that to the property of a third party, resulting from failure to comply with the requirements of the Contract Documents or failure to exercise reasonable care in performing the Work. If Contractor fails or refuses to repair the damage promptly, Owner may have the necessary work performed and charge the cost to Contractor.
- B. Tree and vegetation protection: Contractor shall only remove trees when specifically authorized to do so, and shall protect vegetation that will remain in place.

5.12 LAYOUT OF WORK

- A. Advanced planning of the Work: Contractor shall plan and lay out the Work in advance of operations so as to coordinate all work without delay or revision.
- B. Layout responsibilities: Contractor shall lay out the Work from Owner-established baselines and bench marks indicated on the Drawings, and shall be responsible for all field measurements in connection with the layout. Contractor shall furnish, at its own expense, all stakes, templates, platforms, equipment, tools, materials, and labor required to lay out any part of the Work. Contractor shall be responsible for executing the Work to the lines and grades that may be established. Contractor shall be responsible for maintaining or restoring all stakes and other marks established.

5.13 MATERIAL AND EQUIPMENT

- A. Contractor to provide new and equivalent equipment and materials: All equipment, material, and articles incorporated into the Work shall be new and of the most suitable grade for the purpose intended, unless otherwise specifically provided in the Contract Documents. References in the Specifications to equipment, material, articles, or patented processes by trade name, make, or catalog number, shall be regarded as establishing a standard quality and shall not be construed as limiting competition. Contractor may, at its option, use any equipment, material, article, or process that, in the judgment of Owner's Representative, is equal to that named in the specifications, unless

otherwise specifically provided in the Contract Documents. Contractor shall ensure that all equipment, materials, and articles incorporated into the Work shall be asbestos free.

- B. Contractor responsible for fitting parts together: Contractor shall do all cutting, fitting, or patching that may be required to make its several parts fit together properly, or receive or be received by work of others set forth in, or reasonably implied by, the Contract Documents. - C. Owner may reject defective Work: Should any of the Work be found defective, or in any way not in accordance with the Contract Documents, this work, in whatever stage of completion, may be rejected by Owner. "Defective" describes Work that is unsatisfactory, faulty or defective, or does not conform to the requirements of the Contract Documents, or does not meet the requirements of any inspection, test, or approval required by the Contract Documents, or has been damaged prior to approval of final payment.

5.14 AVAILABILITY AND USE OF UTILITY SERVICES

- A. Owner to provide and charge for utilities: Owner shall make all reasonable utilities available to Contractor from existing outlets and supplies, as specified in the Contract Documents. Unless otherwise provided in the Contract Documents, the utility service consumed shall be charged to or paid for by Contractor at prevailing rates charged to Owner or, where the utility is produced by Owner, at reasonable rates determined by Owner. Contractor will carefully conserve any utilities furnished.
- B. Contractor to install temporary connections and meters: Contractor shall, at its expense and in a skillful manner satisfactory to Owner, install and maintain all necessary temporary connections and distribution lines, together with appropriate protective devices, and all meters required to measure the amount of each utility used for the purpose of determining charges. Prior to the date of Final Acceptance, Contractor shall remove all temporary connections, distribution lines, meters, and associated equipment and materials.

5.15 TESTS AND INSPECTION

- A. Owner shall provide for all special inspections and testing of Work. Owner shall manage the special inspections and testing program and perform such tests and inspections as are necessary or required to ensure that the Work conforms to the requirements of the Contract Documents. Contractor shall be responsible for quality control and quality assurance of all its Work and all Work performed by any Subcontractor. Unless otherwise provided, Owner shall make arrangements for special inspections and testing as required by the public permitting authority and the Engineer, to be conducted by a qualified independent testing and inspections laboratory (TIA) acceptable to the appropriate public permitting authority, and shall bear all related costs of tests, inspections, and approvals. Contractor is not relieved of any responsibilities to accommodate special inspections and testing as required by the Engineer and the public permitting authority, and Contractor shall give TIA timely notice of when and where such required tests and inspections are to be made. TIA shall maintain complete inspection records and make them available to Owner, Contractor, Engineer, and public permitting authority. TIA shall promptly notify Contractor if an inspection or test reveals that the Work is not in accordance with the Contract Documents.
- B. Owner may conduct tests and inspections: Owner may, at any reasonable time, conduct such inspections and tests as it deems necessary to ensure that the Work is in accordance with the Contract Documents. Owner shall promptly notify Contractor if an inspection or test reveals that the Work is not in accordance with the Contract Documents. Unless the subject items are expressly accepted by Owner, such Owner inspection and tests are for the sole benefit of Owner and do not:

1. Constitute or imply acceptance;

2. Relieve Contractor of responsibility for providing adequate quality control measures;
 3. Relieve Contractor of responsibility for risk of loss or damage to the Work, materials, or equipment;
 4. Relieve Contractor of its responsibility to comply with the requirements of the Contract Documents; or
 5. Impair Owner's right to reject defective or nonconforming items, or to avail itself of any other remedy to which it may be entitled.
- C. Inspections or inspectors do not modify Contract Documents: Neither observations by an inspector retained by Owner, the presence or absence of such inspector on the site, nor inspections, tests, or approvals by others, shall relieve Contractor from any requirement of the Contract Documents, nor is any such inspector authorized to change any term or condition of the Contract Documents.
- D. Contractor responsibilities on inspections: Contractor shall promptly furnish, without additional charge, all facilities, labor, material and equipment reasonably needed for performing such safe and convenient inspections and tests as may be required by Owner. Owner may charge Contractor any additional cost of inspection or testing when Work is not ready at the time specified by Contractor for inspection or testing, or when prior rejection makes re-inspection or retest necessary. Owner shall perform its inspections and tests in a manner that will cause no undue delay in the Work.
- E. Owner's inspector: Apart from the TIA, Owner's Representative may appoint inspectors to inspect all materials used and all Work done. Such inspection may extend to any or all parts of the Work and to the preparation or manufacture of the materials to be used. The inspectors are not authorized to revoke, alter, enlarge, or relax the provisions of the Contract Documents, nor to approve or accept any portion of the Work or to issue instructions contrary to the Contract Documents. An inspector is placed on the Work site to review the Work and to keep the Owner's Representative informed as to the progress of the Work and the manner in which it is being done. The inspector shall also call the attention of the Contractor to any deviations from the Contract Documents, but failure of the inspector or Owner's Representative to call the attention of the Contractor to faulty Work, deviations from, or infringements upon the Contract Documents shall not constitute acceptance of said Work. The inspector has the authority to reject defective material and to suspend any Work that is being improperly done, subject to the final decision of the Owner's Representative. The inspector will exercise such additional authority as may, from time to time, be especially delegated to him by the Owner's Representative, and such inspection duties may also be performed by the Owner's Representative.
- F. Owner visits to site: The Contractor shall provide access, at reasonable times, to the Owner's Representative and other agents of the Owner for observation of the Work, inspection, and testing. The Contractor shall provide proper and safe facilities for such access. The Owner's Representative and/or inspector will observe the progress and quality of the executed Work and determine, in general, if the Work and Project is proceeding in accordance with the Contract Documents. Owner's Representative and/or inspector are not required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. The efforts of the Owner's Representative and/or inspector will be directed toward providing assurance that the completed Project will conform to the requirements of the Contract Documents. Neither observations by the Owner's Representative and/or inspectors, nor inspections, tests or approvals by persons other than the Contractor shall relieve Contractor from its obligations to perform the Work in accordance with the requirements of the Contract Documents.

5.16 CORRECTION OF NONCONFORMING WORK

- A. Work covered by Contractor without inspection: If a portion of the Work is covered contrary to the requirements in the Contract Documents, it must, if required in writing by Owner, be uncovered for Owner's observation and be replaced at the Contractor's expense and without change in the Contract Time.
- B. Payment provisions for uncovering covered Work: If, at any time prior to Final Completion, Owner desires to examine the Work, or any portion of it, which has been covered, Owner may request to see such Work and it shall be uncovered by Contractor. If such Work is in accordance with the Contract Documents, the Contractor shall be entitled to an adjustment in the Contract Sum for the costs of uncovering and replacement, and, if completion of the Work is thereby delayed, an adjustment in the Contract Time, provided it makes such a request as provided in Part 7. If such Work is not in accordance with the Contract Documents, the Contractor shall pay the costs of examination and reconstruction.
- C. Contractor to correct and pay for non-conforming Work: Contractor shall promptly correct Work found by Owner not to conform to the requirements of the Contract Documents, whether observed before or after Substantial Completion and whether or not fabricated, installed, or completed. Contractor shall bear all costs of correcting such nonconforming Work, including additional testing and inspections.
- D. Contractor's compliance with warranty provisions: If, within one year after the date of Substantial Completion of the Work or designated portion thereof, or within one year after the date for commencement of any system warranties established under Section 6.08, or within the terms of any applicable special warranty required by the Contract Documents, any of the Work is found to be not in accordance with the requirements of the Contract Documents, Contractor shall correct it promptly after receipt of written notice from Owner to do so, without cost to the Owner. Owner shall give such notice promptly after discovery of the condition. This period of one year shall be extended, with respect to portions of Work first performed after Substantial Completion, by the period of time between Substantial Completion and the actual performance of the Work. Contractor's duty to correct with respect to Work repaired or replaced shall run for one year from the date of repair or replacement. Obligations under this paragraph shall survive Final Acceptance.
- E. Contractor to remove non-conforming Work: Contractor shall remove from the Project site portions of the Work which are not in accordance with the requirements of the Contract Documents and are neither corrected by Contractor nor accepted by Owner.
- F. Owner may charge Contractor for non-conforming Work: If Contractor fails to correct nonconforming Work within a reasonable time after written notice to do so, Owner may replace, correct, or remove the nonconforming Work and charge the cost thereof to the Contractor.
- G. Contractor to pay for damaged Work during correction: Contractor shall bear the cost of correcting destroyed or damaged Work, whether completed or partially completed, caused by Contractor's correction or removal of Work which is not in accordance with the requirements of the Contract Documents.
- H. No Period of limitation on other requirements: Nothing contained in this section shall be construed to establish a period of limitation with respect to other obligations which Contractor might have according to the Contract Documents. Establishment of the time period of one year as described in Section 5.16D relates only to the specific obligation of Contractor to correct the Work, and has no relationship to the time within which the Contractor's obligation to comply with the Contract Documents may be sought to be enforced, including the time within which such proceedings may be commenced.

- I. Owner may accept non-conforming Work and charge Contractor: If Owner prefers to accept Work which is not in accordance with the requirements of the Contract Documents, Owner may do so instead of requiring its removal and correction, in which case the Contract Sum may be reduced as appropriate and equitable.

5.17 CLEAN UP

Contractor to keep site clean and leave it clean: Contractor shall at all times keep the Project site, including hauling routes, infrastructures, utilities, and storage areas, free from accumulations of waste materials, and other debris resulting from the Work. Before completing the Work, Contractor shall remove from the premises all waste materials, rubbish, debris, tools, scaffolding, equipment, and materials. Upon completing the Work, Contractor shall leave the Project site in a clean, neat, and orderly condition satisfactory to Owner. Contractor shall restore to original condition those portions of the site not designated for alteration by the Contract Documents. If Contractor fails to clean up as provided herein, and after reasonable notice from Owner, Owner may do so and the cost thereof shall be charged to Contractor.

5.18 ACCESS TO WORK

Owner and A/E access to Work site: Contractor shall provide Owner and A/E access to the Work in progress wherever located.

5.19 OTHER CONTRACTS

Owner may award other contracts; Contractor to cooperate: Owner may undertake or award other contracts for additional work at or near the Project site. Contractor shall reasonably cooperate with the other contractors and with Owner's employees and shall carefully adapt scheduling and perform the Work in accordance with these Contract Documents to reasonably accommodate the other work.

5.20 SUBCONTRACTORS AND SUPPLIERS

- A. Subcontractor Responsibility: The Contractor shall include the language of this paragraph in each of its first tier subcontracts and shall require each of its subcontractors to include the same language of this section in each of their subcontracts, adjusting only as necessary and relevant for the work and the terms used for the contracting parties. Upon request of the Owner, the Contractor shall promptly provide documentation to the Owner demonstrating that the subcontractor meets the subcontractor responsibility criteria below. By appropriate and proportional written agreement, Contractor shall require each Subcontractor, so far as applicable to the Work to be performed by the Subcontractor, to be bound to Contractor by terms of the Contract Documents, and to assume toward Contractor all the obligations and responsibilities which Contractor assumes toward Owner in accordance with the Contract Documents. Each Subcontract shall preserve and protect the rights of Owner in accordance with the Contract Documents with respect to the Work to be performed by the Subcontractor so that subcontracting thereof will not prejudice such rights. Where appropriate, Contractor shall require each Subcontractor to enter into similar agreements with subcontractors at lower tiers. However, nothing in this paragraph shall be construed to alter the contractual relations between Contractor and its Subcontractors with respect to insurance or bonds. Nothing in the Contract Documents shall imply any contractual relationship between any Subcontractor and the Owner.
- D. Coordination of Subcontractors; Contractor responsible for Work: Contractor shall schedule, supervise, and coordinate the operations of all Subcontractors. No Subcontracting of any of the Work shall relieve Contractor from its responsibility for the performance of the Work in accordance with the Contract Documents or any other obligations of the Contract Documents.
- E. Automatic assignment of subcontracts: Each subcontract agreement for a portion of the Work is hereby assigned by Contractor to Owner provided that:
- 1. Effective only after termination and Owner approval: The assignment is effective only after termination by Owner for cause pursuant to Section 9.01 and only for those Subcontracts which Owner accepts by notifying the Subcontractor in writing; and

2. Owner assumes Contractor's responsibilities: After the assignment is effective, Owner will assume all future duties and obligations toward the Subcontractor which Contractor assumed in the Subcontract.
3. Impact of bond: The assignment is subject to the prior rights of the surety, if any, obligated under any bond provided in accordance with the Contract Documents.

5.21 WARRANTY OF CONSTRUCTION

- A. Contractor warranty of Work: In addition to any special warranties provided elsewhere in the Contract Documents, Contractor warrants that all Work conforms to the requirements of the Contract Documents and is free of any defect in equipment, material, or design furnished, or workmanship performed by Contractor.
- B. Contractor responsibilities: With respect to all warranties, express or implied, for Work performed or materials furnished according to the Contract Documents, Contractor shall:
 1. Obtain warranties: Obtain all warranties that would be given in normal commercial practice;
 2. Warranties for benefit of Owner: Require all warranties to be executed, in writing, for the benefit of Owner;
 3. Enforcement of warranties: Enforce all warranties for the benefit of Owner, if directed by Owner; and
 4. Contractor responsibility for subcontractor warranties: Be responsible to enforce any subcontractor's, manufacturer's, or supplier's warranties should they extend beyond the period specified in the Contract Documents.
- C. Warranties beyond Final Acceptance: The obligations under this section shall survive Final Acceptance.

5.22 INDEMNIFICATION

- A. Contractor to indemnify Owner: Contractor shall indemnify and hold Owner, its officers, officials, employees and volunteers, and A/E harmless from any and all claims, injuries, demands, losses, damages, costs, or suits including attorney fees, arising out of or in connection with the performance of this Contract, and caused by or resulting from:
 1. Sole negligence of Contractor: The sole negligence of Contractor or any of its Subcontractors;
 2. Concurrent negligence: The concurrent negligence of Contractor, or any Subcontractor, but only to the extent of the negligence of Contractor or such Subcontractor; and
 3. Patent infringement: The use of any design, process, or equipment which constitutes an infringement of any United States patent presently issued, or violates any other proprietary interest, including copyright, trademark, and trade secret.
- B. Employee action and RCW Title 51: In any action against Owner and any other entity indemnified in accordance with this section, by any employee of Contractor, its Subcontractors, Sub-subcontractors, agents, or anyone directly or indirectly employed by any of them, the indemnification obligation of this section shall not be limited by a limit on the amount or type of damages, compensation, or benefits payable by or for Contractor or any Subcontractor under Title

51 RCW, the Industrial Insurance Act, or any other employee benefit acts. It is further specifically and expressly understood that the indemnification provided herein constitutes the Contractor's waiver of immunity as to Owner and A/E only, under Title 51 RCW, solely for the purposes of this indemnification. This waiver has been mutually negotiated by the parties. The provisions of this Indemnification section shall survive the expiration or termination of the Contract.

6.01 CONTRACT SUM

Owner shall pay Contract Sum: Owner shall pay Contractor the Contract Sum plus state sales tax for performance of the Work, in accordance with the Contract Documents.

6.02 SCHEDULE OF VALUES

Contractor to submit Schedule of Values: Before submitting its first Application for Payment, Contractor shall submit to Owner for approval a breakdown allocating the total Contract Sum to each principal category of work, in such detail as requested by Owner ("Schedule of Values"). The approved Schedule of Values shall include appropriate amounts for demobilization, record drawings, O&M manuals, and any other requirements for Project closeout, and shall be used by Owner as the basis for progress payments. Payment for Work shall be made only for and in accordance with those items included in the Schedule of Values.

6.03 APPLICATION FOR PAYMENT

- A. Monthly Application for Payment with substantiation: At monthly intervals, unless determined otherwise by Owner, Contractor shall submit to Owner an itemized Application for Payment for Work completed in accordance with the Contract Documents and the approved Schedule of Values. Each application shall be supported by such substantiating data as Owner may require, including but not limited to certified payroll confirmation, apprentice utilization reporting, and diverse business inclusion.
- B. Contractor certifies Subcontractors paid: By submitting an Application for Payment, Contractor must certify that all Subcontractors have been paid within 10 days of previously receiving payment by the Owner, less earned retainage in accordance with RCW 60.28.011, as their interests appeared in the last preceding certificate of payment. By submitting an Application for Payment, Contractor is recertifying that the representations set forth in Section 1.03, are true and correct, to the best of Contractor's knowledge, as of the date of the Application for Payment.
- C. Reconciliation of Work with Progress Schedule: At the time of Application for Payment submittal, Contractor shall analyze and reconcile, to the satisfaction of Owner, the actual progress of the Work with the Progress Schedule.
- D. Payment for Materials Delivered to Site or Stored Off-Site: If authorized by Owner, the Application for Payment may include request for payment for material delivered to the Project site and suitably stored, or for completed preparatory work. Payment may similarly be requested for material stored off the Project site, provided Contractor complies with or furnishes satisfactory evidence of the following:
 - 1. Suitable facility or location: The material will be placed in a facility or location that is structurally sound, dry, lighted and suitable for the materials to be stored;

3. Facility or location exclusive to Project's materials: Only materials for the Project are stored within the facility or location (or a secure portion of a facility or location set aside for the Project);
4. Insurance provided on materials in facility or location: Contractor furnishes Owner a certificate of insurance extending Contractor's insurance coverage for damage, fire, and theft to cover the full value of all materials stored, or in transit;
5. Facility or location locked and secure: The facility or location (or secure portion thereof) is continuously under lock and key, and only Contractor's authorized personnel shall have access;
6. Owner right of access to facility or location: Owner shall at all times have the right of access in company of Contractor;
7. Contractor assumes total responsibility for stored materials: Contractor and its surety assume total responsibility for the stored materials; and
8. Contractor provides documentation and Notice when materials moved to site: Contractor furnishes to Owner certified lists of materials stored, bills of lading, invoices, and other information as may be required, and shall also furnish Notice to Owner when materials are moved from storage to the Project site.

6.04 PROGRESS PAYMENTS

- A. Owner to pay within 30 Days: Owner shall make progress payments, in such amounts as Owner determines are properly due, within 30 Days after receipt of a properly executed Application for Payment. Owner shall notify Contractor in accordance with Chapter 39.76 RCW if the Application for Payment does not comply with the requirements of the Contract Documents.
- B. Contractor to pay Subcontractors within 10 Days: In accordance with chapter 39.04.250, the Contractor, and subcontractors at every tier, shall make payments to lower tier subcontractors not later than 10 days following payment made by the Owner or the higher tier subcontractor. Failure to make timely payment, or withholding payment without written notice of dispute, is a material breach of Contract.
- C. Withholding retainage; Options for retainage: Owner shall retain 5% of the amount of each progress payment until 45 Days after Final Acceptance and receipt of all documents required by law or the Contract Documents, including, at Owner's request, consent of surety to release of the retainage. In accordance with chapter 60.28 RCW, Contractor may request that monies reserved be retained in a fund by Owner, deposited by Owner in a bank or savings and loan, or placed in escrow with a bank or trust company to be converted into bonds and securities to be held in escrow with interest to be paid to Contractor. Owner may permit Contractor to provide an appropriate bond in lieu of the retained funds.
- D. Title passes to Owner upon payment: Title to all Work and materials covered by a progress payment shall pass to Owner at the time of such payment free and clear of all liens, claims, security interests, and encumbrances. Passage of title shall not, however, relieve Contractor from any of its duties and responsibilities for the Work or materials, or waive any rights of Owner to insist on full compliance by Contractor with the Contract Documents.

6.05 PAYMENTS WITHHELD

- A. Owner's right to withhold payment: Owner may withhold or, on account of subsequently discovered evidence, nullify the whole or part of any payment to such extent as may be necessary to protect Owner from loss or damage for reasons including but not limited to:

6.06 RETAINAGE AND BOND CLAIM RIGHTS

Chapters 39.08 RCW and 60.28 RCW incorporated by reference: Chapters 39.08 RCW and 60.28 RCW, concerning the rights and responsibilities of Contractor and Owner with regard to the performance and payment bonds and retainage, are made a part of the Contract Documents by reference as though fully set forth herein.

6.07 SUBSTANTIAL COMPLETION

Substantial Completion defined: Substantial Completion is the stage in the progress of the Work (or portion thereof designated and approved by Owner) when the construction is sufficiently complete, in accordance with the Contract Documents, so Owner has full and unrestricted use and benefit of the facilities (or the designated portion thereof and approved by Owner) for the use for which it is intended. All Work other than incidental corrective and incidental punch list work shall be completed. Substantial Completion shall not have been achieved if all systems and parts are not functional, if utilities are not connected and operating normally, if all required occupancy permits have not been issued, or if the Work is not accessible by normal vehicular and pedestrian traffic routes. The date Substantial Completion is achieved shall be established in writing by Owner. Contractor may request an early date of Substantial Completion which must be approved by Change Order. Owner's occupancy of the Work or designated portion thereof does not necessarily indicate that Substantial Completion has been achieved.

6.08 PRIOR OCCUPANCY

- A. Prior Occupancy defined; Restrictions: Owner may, upon written notice thereof to Contractor, take possession of or use any completed or partially completed portion of the Work ("Prior Occupancy") at any time prior to Substantial Completion. Unless otherwise agreed in writing, Prior Occupancy shall not: be deemed an acceptance of any portion of the Work; accelerate the time for any payment to Contractor; prejudice any rights of Owner provided by any insurance, bond, guaranty, or the Contract Documents; relieve Contractor of the risk of loss or any of the obligations established by the Contract Documents; establish a date for termination or partial termination of the assessment of liquidated damages; or constitute a waiver of claims.

- B. Damage; Duty to repair and warranties: Notwithstanding anything in the preceding paragraph, Owner shall be responsible for loss of or damage to the Work resulting from Prior Occupancy. Contractor's one year duty to repair any system warranties shall begin on building systems activated and used by Owner as agreed in writing by Owner and Contractor.

6.09 FINAL COMPLETION, ACCEPTANCE, AND PAYMENT

- A. Final Completion defined: Final Completion shall be achieved when the Work is fully and finally complete in accordance with the Contract Documents. The date Final Completion is achieved shall be established by Owner in writing, but in no case shall constitute Final Acceptance which is a subsequent, separate, and distinct action.
- B. Final Acceptance defined: Final Acceptance shall be achieved when the Contractor has completed the requirements of the Contract Documents. The date Final Acceptance is achieved shall be established by Owner in writing. Prior to Final Acceptance, Contractor shall, in addition to all other requirements in the Contract Documents, submit to Owner a written notice of any outstanding disputes or claims between Contractor and any of its Subcontractors, including the amounts and other details thereof. Neither Final Acceptance, nor final payment, shall release Contractor or its sureties from any obligations of these Contract Documents or the payment and performance bonds, or constitute a waiver of any claims by Owner arising from Contractor's failure to perform the Work in accordance with the Contract Documents.
- C. Final payment waives Claim rights: Acceptance of final payment by Contractor, or any Subcontractor, shall constitute a waiver and release to Owner of all claims by Contractor, or any such Subcontractor, for an increase in the Contract Sum or the Contract Time, and for every act or omission of Owner relating to or arising out of the Work, except for those Claims made in accordance with the procedures, including the time limits, set forth in Part 8.
- D. Adjustment in quantities or retain-age: Prior to final payment, the Owner will issue a Change Order reconciling any estimated quantities bid with actual quantities used during the performance of the Work, or adjustments in retain-age due to the assessment of Liquidated or Actual Damages, and the Contract Sum shall be adjusted accordingly.

PART 7 – CHANGES

7.01 CHANGES IN THE WORK

- A. Changes in Work, Contract Sum, and Contract Time by Change Order: Owner may, at any time and without notice to Contractor's surety, order additions, deletions, revisions, or other changes in the Work. These changes in the Work shall be incorporated into the Contract Documents through the execution of Change Orders. If any change in the Work ordered by Owner causes an increase or decrease in the Contract Sum or the Contract Time, an equitable adjustment shall be made as provided in Section 7.02 or 7.03, respectively, and such adjustment(s) shall be incorporated into a Change Order.
- B. Owner may request Change Order Proposal from Contractor: If Owner desires to order a change in the Work, it may request a written Change Order Proposal from Contractor. Contractor shall submit a Change Order Proposal within 14 Days of the request from Owner, or within such other period as mutually agreed. Contractor's Change Order Proposal shall be full compensation for implementing the proposed change in the Work, including any adjustment in the Contract Sum or Contract Time, and including compensation for all delays in connection with such change in the Work and for any expense or inconvenience, disruption of schedule, or loss of efficiency or productivity occasioned by the change in the Work.

- C. Change Order Proposal negotiations: Upon receipt of the Change Order Proposal, or a request for equitable adjustment in the Contract Sum or Contract Time, or both, as provided in Sections 7.02 and 7.03, Owner may accept or reject the proposal, request further documentation, or negotiate acceptable terms with Contractor. Pending agreement on the terms of the Change Order, Owner may direct Contractor to proceed immediately with the Change Order Work. Contractor shall not proceed with any change in the Work until it has obtained Owner's approval. All Work done pursuant to any Owner-directed change in the Work shall be executed in accordance with the Contract Documents.
- D. Change Order as full payment and final settlement: If Owner and Contractor reach agreement on the terms of any change in the Work, including any adjustment in the Contract Sum or Contract Time, such agreement shall be incorporated in a Change Order. The Change Order shall constitute full payment and final settlement of all claims for time and for direct, indirect, and consequential costs, including costs of delays, inconvenience, disruption of schedule, or loss of efficiency or productivity, related to any Work either covered or affected by the Change Order, or related to the events giving rise to the request for equitable adjustment.
- E. Failure to agree upon terms of Change Order; Final offer and Claims: If Owner and Contractor are unable to reach agreement on the terms of any change in the Work, including any adjustment in the Contract Sum or Contract Time, Contractor may at any time in writing, request a final offer from Owner. Owner shall provide Contractor with its written response within 30 Days of Contractor's request. Owner may also provide Contractor with a final offer at any time. If Contractor rejects Owner's final offer, or the parties are otherwise unable to reach agreement, Contractor's only remedy shall be to file a Claim as provided in Part 8.
- F. Field Orders: The Owner may direct the Contractor to proceed with a change in the work through a written Field Order when the time required to price and execute a Change Order would impact the Project.

The Field Order shall describe and include the following:

1. The scope of work
2. An agreed upon maximum not-to-exceed amount
3. Any estimated change to the Contract Time
4. The method of final cost determination in accordance with the requirements of Part 7 of the General Conditions
5. The supporting cost data to be submitted in accordance with the requirements of Part 7 of the General Conditions

Upon satisfactory submittal by the Contractor and approval by the Owner of supporting cost data, a Change Order will be executed. The Owner will not make payment to the Contractor for Field Order work until that work has been incorporated into an executed Change Order.

- G. Change Order Timeliness: In accordance with RCW 39.04.360, the Owner shall issue a Change Order for the full amount of the additional work within thirty (30) days of a request by the Contractor or the completion of the additional Work, whichever is earlier, unless formal notice of dispute is provided. Upon receipt of an executed Change Order from the Owner, the Contractor (and subcontractors of any tier) must issue corresponding Change Orders to their respective subcontractors within ten (10) days. Any Change Order not issued within these timeframes shall be subject to interest at a rate of 1% per month pursuant to RCW 39.76 (the Prompt Payment Act). Interest charges shall be paid to the affected subcontractors by the party responsible for the delay.

7.02 CHANGE IN THE CONTRACT SUM

A. General Application

1. Contract Sum changes only by Change Order: The Contract Sum shall only be changed by a Change Order. Contractor shall include any request for a change in the Contract Sum in its Change Order Proposal. The Contractor shall not be entitled to an increase in the Contract Sum or an extension of the Contract Time for work performed by Contractor without authorization of an executed Change Order, except in an emergency as provided in Section 5.07G, and except as provided in Section 7.01F and Section 5.16B.
2. Owner fault or negligence as basis for change in Contract Sum: If the cost of Contractor's performance is changed due to the fault or negligence of Owner, or anyone for whose acts Owner is responsible, Contractor shall be entitled to make a request for an equitable adjustment in the Contract Sum in accordance with the following procedure. No change in the Contract Sum shall be allowed to the extent: Contractor's changed cost of performance is due to the fault or negligence of Contractor, or anyone for whose acts Contractor is responsible; the change is concurrently caused by Contractor and Owner; or the change is caused by an act of Force Majeure as defined in Section 3.05.
 - (a) Notice and record keeping for equitable adjustment: A request for an equitable adjustment in the Contract Sum shall be based on written notice delivered to Owner within 7 Days of the occurrence of the event giving rise to the request. For purposes of this part, "occurrence" means when Contractor knew, or in its diligent prosecution of the Work should have known, of the event giving rise to the request. If Contractor believes it is entitled to an adjustment in the Contract Sum, Contractor shall immediately notify Owner and begin to keep and maintain complete, accurate, and specific daily records. Contractor shall give Owner access to any such records and, if requested shall promptly furnish copies of such records to Owner.
 - (b) Content of notice for equitable adjustment; Failure to comply: Contractor shall not be entitled to any adjustment in the Contract Sum for any occurrence of events or costs that occurred more than 7 Days before Contractor's written notice to Owner. The written notice shall set forth, at a minimum, a description of: the event giving rise to the request for an equitable adjustment in the Contract Sum; the nature of the impacts to Contractor and its Subcontractors of any tier, if any; and to the extent possible the amount of the adjustment in Contract Sum requested. Failure to properly give such written notice shall, to the extent Owner's interests are prejudiced, constitute a waiver of Contractor's right to an equitable adjustment.
 - (c) Contractor to provide supplemental information: Within 30 Days of the occurrence of the event giving rise to the request, unless Owner agrees in writing to allow an additional period of time to ascertain more accurate data, Contractor shall supplement the written notice provided in accordance with subparagraph a. above with additional supporting data. Such additional data shall include, at a minimum: the amount of compensation requested, itemized in accordance with the procedure set forth herein; specific facts, circumstances, and analysis that confirms not only that Contractor suffered the damages claimed, but that the damages claimed were actually a result of the act, event, or condition complained of and that the Contract Documents provide entitlement to an equitable adjustment to Contractor for such act, event, or condition; and documentation sufficiently detailed to permit an informed analysis of the request by Owner. When the request for compensation relates to a delay, or other change in Contract Time, Contractor shall demonstrate the impact on the critical path, in accordance with Section 7.03C. Failure to provide such additional information and documentation within the time allowed or within the format required shall, to the extent

Owner's interests are prejudiced, constitute a waiver of Contractor's right to an equitable adjustment.

- (d) Contractor to proceed with Work as directed: Pending final resolution of any request made in accordance with this paragraph, unless otherwise agreed in writing, Contractor shall proceed diligently with performance of the Work.
 - (e) Contractor to combine requests for same event together: Any requests by Contractor for an equitable adjustment in the Contract Sum and in the Contract Time that arise out of the same event(s) shall be submitted together.
3. Methods for calculating Change Order amount: The value of any Work covered by a Change Order, or of any request for an equitable adjustment in the Contract Sum, shall be determined by one of the following methods:
- a. Fixed Price: On the basis of a fixed price as determined in paragraph 7.02B.
 - b. Unit Prices: By application of unit prices to the quantities of the items involved as determined in paragraph 7.02C.
 - c. Time and Materials: On the basis of time and material as determined in paragraph 7.02D.
4. Fixed price method is default; Owner may direct otherwise: When Owner has requested Contractor to submit a Change Order Proposal, Owner may direct Contractor as to which method in subparagraph 3 above to use when submitting its proposal. Otherwise, Contractor shall determine the value of the Work, or of a request for an equitable adjustment, on the basis of the fixed price method.

B. Change Order Pricing – Fixed Price

Procedures: When the fixed price method is used to determine the value of any Work covered by a Change Order, or of a request for an equitable adjustment in the Contract Sum, the following procedures shall apply:

- 1. Breakdown and itemization of details on Change Order Proposal: Contractor's Change Order Proposal, or request for adjustment in the Contract Sum, shall be accompanied by a complete itemization of the costs, including labor, material, subcontractor costs, and overhead and profit. The costs shall be itemized in the manner set forth below, and shall be submitted on breakdown sheets in a form approved by Owner.
- 2. Use of industry standards in calculating costs: All costs shall be calculated based upon appropriate industry standard methods of calculating labor, material quantities, and equipment costs.
- 3. Costs contingent on Owner's actions: If any of Contractor's pricing assumptions are contingent upon anticipated actions of Owner, Contractor shall clearly state them in the proposal or request for an equitable adjustment.
- 4. Markups on Additive and Deductive Work: The cost of any Additive or Deductive changes in the Work shall be calculated as set forth below, except that overhead and profit shall not be included on Deductive changes in the Work. Where a change in the Work involves Additive and Deductive work by the same Contractor or Subcontractor, small tools, overhead, profit, bond and insurance markups will apply to the net difference.
- 5. Breakdown not required if change less than \$1,000: If the total cost of the change in the Work or request for equitable adjustment does not exceed \$1,000, Contractor shall not be

required to submit a breakdown if the description of the change in the Work or request for equitable adjustment is sufficiently definitive for Owner to determine fair value.

6. Breakdown required if change between \$1,000 and \$2,500: If the total cost of the change in the Work or request for equitable adjustment is between \$1,000 and \$2,500, Contractor may submit a breakdown in the following level of detail if the description of the change in the Work or if the request for equitable adjustment is sufficiently definitive to permit the Owner to determine fair value:
 - a. lump sum labor;
 - b. lump sum material;
 - c. lump sum equipment usage;
 - d. overhead and profit as set forth below; and
 - e. insurance and bond costs as set forth below.
7. Components of increased cost: Any request for adjustment of Contract Sum based upon the fixed price method shall include only the following items:
 - a. Craft labor costs: These are the labor costs determined by multiplying the estimated or actual additional number of craft hours needed to perform the change in the Work by the hourly labor costs. Craft hours should cover direct labor, as well as indirect labor due to trade inefficiencies. The hourly costs shall be based on the following:
 - (1) Basic wages and benefits: Hourly rates and benefits as stated on the Department of Labor and Industries approved "statement of intent to pay prevailing wages" or a higher amount if approved by the Owner. Direct supervision shall be a reasonable percentage not to exceed 15% of the cost of direct labor. No supervision markup shall be allowed in a Change Order that contains direct labor costs for a working supervisor's hours (including any category of foreman).
 - (2) Worker's insurance: Direct contributions to the state of Washington for industrial insurance; medical aid; and supplemental pension, by the class and rates established by the Department of Labor and Industries.
 - (3) Federal insurance: Direct contributions required by the Federal Insurance Compensation Act; Federal Unemployment Tax Act; and the State Unemployment Compensation Act.
 - (4) Travel allowance: Travel allowance and/or subsistence, if applicable, not exceeding those allowances established by regional labor union agreements, which are itemized and identified separately.
 - (5) Safety: Cost incurred due to the Washington Industrial Safety and Health Act, which shall be a reasonable percentage not to exceed 2% of the sum of the amounts calculated in (1), (2), and (3) above.
 - b. Material costs: This is an itemization of the quantity and cost of materials needed to perform the change in the Work. Material costs shall be developed first from actual known costs, second from supplier quotations or if these are not available, from standard industry pricing guides. Material costs shall consider all available

discounts. Freight costs, express charges, or special delivery charges, shall be itemized.

- c. Equipment costs: This is an itemization of the type of equipment and the estimated or actual length of time the construction equipment appropriate for the Work is or will be used on the change in the Work. Costs will be allowed for construction equipment only if used solely for the changed Work, or for additional rental costs actually incurred by the Contractor. The Contractor's cost for utility vehicles and other items such as pickup trucks, vans, flatbed trucks, storage trailers, containers, etc., that are already in use or planned for use on the Project will not be compensated in Change Order work except for the time that, in the opinion of the Owner, such items: (1) are directly and necessarily used for the performance of the change work; and (2) the cost of using such items has not been included within the Contractor's total project overhead costs. Equipment charges shall be computed on the basis of actual invoice costs or if owned, from the current edition of one of the following sources:

- (1) Associated General Contractors Washington State Department of Transportation (AGC WSDOT) Equipment Rental Agreement current edition, on the Contract execution date.
- (2) The National Electrical Contractors Association for equipment used on electrical work.
- (3) The Mechanical Contractors Association of America for equipment used on mechanical work.

The EquipmentWatch Rental Rate Blue Book shall be used as a basis for establishing rental rates of equipment not listed in the above sources. The maximum rate for standby equipment shall not exceed that shown in the AGC WSDOT Equipment Rental Agreement, current edition on the Contract execution date.

- d. Allowance for small tools, expendables & consumable supplies: Small tools consist of tools which cost \$250 or less and are normally furnished by the performing contractor. The maximum rate for small tools shall not exceed the following:

- (1) 3% for Contractor: For Contractor, 3% of direct labor costs.
- (2) 5% for Subcontractors: For Subcontractors, 5% of direct labor costs.

Expendables and consumables supplies directly associated with the change in Work must be itemized.

- e. Subcontractor costs: This is defined as payments Contractor makes to Subcontractors for changed Work performed by Subcontractors of any tier. The Subcontractors' cost of Work shall be calculated and itemized in the same manner as prescribed herein for Contractor.
- f. Allowance for overhead: This is defined as costs of any kind attributable to direct and indirect delay, acceleration, or impact, added to the total cost to Owner of any change in the Contract Sum. If the Contractor is compensated under Section 7.03D, the amount of such compensation shall be reduced by the amount Contractor is otherwise entitled to under this subsection (f). This allowance shall compensate Contractor for all noncraft labor, temporary construction facilities, field engineering, and schedule updating, as-built drawings, home office cost, B&O taxes, office engineering, estimating costs, additional overhead because of extended time, and any other cost incidental to the change in the

Work. It shall be strictly limited in all cases to a reasonable amount, mutually acceptable, or if none can be agreed upon to an amount not to exceed the rates below:

- (a) Contractor markup on Contractor Work: For Contractor, for any Work actually performed by Contractor's own forces, 16% of the first \$50,000 of the cost, and 4% of the remaining cost, if any.
 - (b) Subcontractor markup for Subcontractor Work: For each Subcontractor (including lower tier subcontractors), for any Work actually performed by its own forces, 16% of the first \$50,000 of the cost, and 4% of the remaining cost, if any.
 - (c) Contractor markup for Subcontractor Work: For Contractor, for any work performed by its Subcontractor(s) 6% of the first \$50,000 of the amount due each Subcontractor, and 4% of the remaining amount if any.
 - (d) Subcontractor markup for lower tier Subcontractor Work: For each Subcontractor, for any Work performed by its Subcontractor(s) of any lower tier, 4% of the first \$50,000 of the amount due the sub-Subcontractor, and 2% of the remaining amount if any.
 - (e) Basis of cost applicable for markup: The cost to which overhead is to be applied shall be developed in accordance with Section 7.02B 7a. – e.
- g. Allowance for profit: Allowance for profit is an amount to be added to the cost of any change in contract sum, but not to the cost of change in Contract Time for which contractor has been compensated pursuant to the conditions set forth in Section 7.03. It shall be limited to a reasonable amount, mutually acceptable, or if none can be agreed upon, to an amount not to exceed the rates below:
- (1) Contractor / Subcontractor markup for self-performed Work: For Contractor or Subcontractor of any tier for work performed by their forces, 6% of the cost developed in accordance with Section 7.02B 7a. – e.
 - (2) Contractor / Subcontractor markup for Work performed at lower tier: For Contractor or Subcontractor of any tier for work performed by a subcontractor of a lower tier, 4% of the subcontract cost developed in accordance with Section 7.02B 7a. – h.
- h. Insurance and bond premiums: Cost of change in insurance or bond premium: This is defined as:
- (1) Contractor's liability insurance: The cost of any changes in Contractor's liability insurance arising directly from execution of the Change Order; and
 - (2) Payment and Performance Bond: The cost of the additional premium for Contractor's bond arising directly from the changed Work.

The cost of any change in insurance or bond premium shall be added after overhead and allowance for profit are calculated in accordance with subparagraph f. and g above.

C. Change Order Pricing – Unit Prices

1. Content of Owner authorization: Whenever Owner authorizes Contractor to perform Work on a unit-price basis, Owner's authorization shall clearly state:

- a. Scope: Scope of work to be performed;
 - b. Reimbursement basis: Type of reimbursement including pre-agreed rates for material quantities; and
 - c. Reimbursement limit: Cost limit of reimbursement.
2. Contractor responsibilities: Contractor shall:

10.12 APPRENTICE UTILIZATION

A. General Requirements

Pursuant to RCW 39.04.320, all Washington State public works projects estimated at two million dollars (\$2,000,000) or more require a minimum of 15% apprentice participation, unless otherwise modified by the Owner.

- Contractors and subcontractors are not required to be signatories to a collective bargaining agreement (Union) to fulfill this requirement. Washington State recognizes "open-shop" training programs.
- Businesses are encouraged to report any approved training program that falsely claims union membership is a prerequisite for participation to L&I. Note that specific trade-regulated programs (e.g., plumbing, mechanical, electrical, elevator) may have distinct L&I designations.
- Utilization is calculated based on Affidavits of Wages Paid submitted via the L&I Prevailing Wage, Intent and Affidavit (PWIA) portal. Total labor hours are derived from certified payroll (hourly workers) and generally exclude salaried employees or owner-operator hours, including all hours worked by foremen, superintendents, owners, and workers who are not subject to prevailing wage requirements.

B. Incentives and Penalties

The Owner recognizes that apprentice availability, course work requirements, journey-level oversight and similar varies by trade and program. The Contractor shall submit an Apprentice Utilization Plan (AUP) that is proportional and relevant to the specific project work scopes and trade classifications required by the Center Hall Remodel Project.

Incentive	A payment of \$2,500 per-apprentice-utilized will be provided to the Contractor or Subcontractor who meets or exceeds their planned apprentice utilization goal without a "Good Faith Effort" adjustment. This incentive is intended to offset costs for annual apprentice training course registration and course materials.
Penalty	A monetary penalty of \$1,500 will be assessed for every percentage point of shortfall from the 15% of total project hours requirement if the Contractor fails to demonstrate a Good Faith Effort, and does not pursue an Apprentice Utilization Percentage Adjustment and/or the Adjustment is denied). The penalty is capped at the greater of \$30,000 or 1% of the total contract amount.

C. Good Faith Efforts (GFE) and Adjustments to Apprentice Utilization Percentage

If the Contractor or any subcontractor determines they cannot meet their pro-rata share of the 15% requirement, they must provide immediate written notice to the Owner and document to the Owner the

Contractor's Good Faith Efforts to employ registered apprentices on the project. The Contractor must submit a Change Order Proposal and Request for Apprentice Utilization Percentage Adjustment in the form required below. Owner may at Owner's discretion reduce the utilization requirement if it determines that Contractor has demonstrated one or more of the following conditions:

1. A demonstrated lack of available apprentices in the specific geographic area.
2. A lack of available apprentices or approved programs for specific work classifications.
3. A disproportionately high ratio of material costs to labor costs.
4. Other documented circumstances that prevented Contractor's attainment of the apprentice utilization rate identified in the Plan at any subcontracting tier.

D. Documentation Requirements

A Contractor Change Order Proposal, and Request for an Apprentice Utilization Percentage Adjustment, shall be in the form of an letter and must include at a minimum:

- Contract number, title, and a current AUP showing proportional contributions by scope.
 - Total apprentice hours attained vs. total project hours.
 - A narrative rationale for the apprentice utilization shortfall and supporting documentation (e.g., phone logs, emails, and letters with dates and names of contacts at State-Approved Training Programs).
 - Evidence of efforts to solicit apprentices, enroll in established programs, or develop new training paths, and responses received to same.
 - Other relevant information.
- E. Apprentice participation, under this contract, may be counted towards the required percentage (%) only if the apprentices are registered in an apprenticeship program approved by the Washington State Apprenticeship and Training Council (RCW 49.04 and WAC 296-05).
- F. Contractors and Subcontractors are encouraged to contact L&I through the [Apprentice Registration and Tracking System](#) (ARTs) to obtain more information about apprenticeship programs and look up registered apprentices.
- G. No changes to the required percentage (%) of apprentice participation shall be allowed without Owner's written approval of the Change Order Proposal and request for Apprentice Utilization Percentage Adjustment . In any request for the change, the Contractor shall clearly demonstrate a good faith effort to comply with the requirements for apprentice participation.
- H. Any substantive violation of the mandatory requirements of this part of the contract may be a material breach of the contract by the Contractor. The Owner may withhold payment pursuant to Part 6.05, stop the work for cause pursuant to Part 3.04, and terminate the contract for cause pursuant to Part 9.01.

END OF SECTION
